

VOL. 9, NO. 15

"PREPARED BY AND FOR THE CAST OF WALT DISNEY WORLD"

APRIL 13, 1979

NEW TRANSPORTATION ASSISTANCE PROGRAMS ANNOUNCED

Since opening day, Walt Disney World has consistently worked to assist cast members with their transportation needs to and from work. With the development of our nationwide concern for energy a few years ago, the issue of finding more efficient transportation systems became not just a Walt Disney World problem but a nationwide problem.

Last week's address to the nation by President Jimmy Carter spotlighted the importance of all Americans working together to conserve energy at every level. And since we at Walt Disney World are committed to doing our part in this nationwide energy concern, we thought we'd recap our continuing energy conservation efforts and transportation assistance programs available to all cast members here at Walt Disney World. Plus, we want to announce some important new programs we are going to initiate.

Express Bus Service To Start This Month

For the past few months, our Cast Activities department has been negotiating with the Orange, Seminole, Osceola Transportation Authority to provide an Express Bus Service exclusively for Walt Disney World cast members. This service will begin on **Monday, April 23** and will primarily serve those cast members living in the South and Southwest Orlando areas, or anyone who drives by one of the bus stops along the route. The schedule presently being negotiated will assist cast members with an 8 a.m. to 4:30 p.m. shift, a 10 a.m. to 7 p.m. shift or a noon to 9 p.m. shift. A complete schedule for this Express Bus Service will be printed in **Eyes & Ears** next week after negotiations have been completed.

Additional Van Pools Available

Our pilot Van Pool program proved so successful that we are now opening it up to groups of 10 to 12 cast members. Just call Cast Activities, extension 4254 for more information.

Although our current transportation assistance programs have been successful, Cast Activities wanted a better system for cast members; one which would save them hundreds of dollars in transportation costs each year. So research began on a Van Pooling program. The result was **Cast Van Pool, Inc.**, an independent non-profit company to supply vans for commuting purposes to groups of 10 cast members living in the same geographical location and working the same shift.

At the end of last year, two groups of cast members were selected to participate in our pilot program. They **share all operating expenses** for the van, and in turn receive personalized pick-up and delivery service from their homes to work. By utilizing this type of energy conservation, these cast members have saved hundreds of dollars in gasoline, maintenance, oil, tires and depreciation.

The Van Pooling program has proved so successful that **Cast Van Pool, Inc.** is now opening up Van Pooling to groups of 10 to 12 cast members who are interested in participating in this program. Interested groups of cast members are urged to contact Cast Activities at extension 4254 for more information.

Cast Gas Station Nears Completion

Another example of how we at Walt Disney World are trying in any way we can to assist cast members with their transportation needs is the development of our Cast Gas Station at the North Service Area parking lot. As you may know, plans for our gas station were formulated prior to the development of our present nationwide energy concern.

ENERGY CONSERVATION FORUM

Bob Allen will host an Energy Conservation Forum next **Wednesday, April 18** from 4 p.m. to 7 p.m. in the Cast Activities Lounge on the second floor of the Center Building.

As President Carter emphasized in his energy address last week, it is important for us all to work together to conserve energy at every level.

Bob wants to hear your ideas on saving energy for both Walt Disney World and your fellow cast members. We are already doing a lot to conserve energy at Walt Disney World and to assist cast members in reducing their energy needs, but we all can do more. Plan to attend this forum . . . Bob wants to hear **your** ideas.

continued from page 1

After we began construction of the station, major gasoline companies agreed to voluntary allocation controls, limiting gasoline stations to specific monthly allotments. As of March 1, 1979, our company has been required to apply to the Department of Energy for approval of a gasoline allocation, which has temporarily delayed the opening of the station. Once we receive this approval, the Cast Gas Station will be opened.

Construction is almost completed at our Cast Gas Station. Once government approval for a gasoline allotment is obtained, we will open the station.

It is our desire to pass on any gasoline savings we can to cast members. Considering the high cost of gasoline and the federal and state taxes which must be included, the profit in gasoline is minimal. Self-service gas stations normally realize only a two to six cent profit on each gallon of gasoline; since Walt Disney World will operate on a non-profit basis, cast members should expect to save that amount on each gallon.

Once our Cast Gas Station is in operation, cast members will be able to purchase gasoline and oil at the station. Air and water will also be available to enable cast members to maintain their vehicle at its peak condition.

More Share-A-Ride Boards to be Installed

Consider this: If every cast member found one other cast member to ride to work with each day, we would cut our gasoline consumption in half and cut the number of cars on the highway each day in half . . . with 13,000 cast members, just think of the thousands of cars that would be eliminated from the highway!

At the present time there are three Share-A-Ride boards located throughout the Walt Disney World property; one is located at the North Service Area parking lot, a second at Cast Activities and a third at Walt Disney World Village at Lake Buena Vista. To assist a larger number of cast members looking for someone to share transportation with, additional boards will be installed in each resort area, the Laundry, Central Foods and our Facilities Shops by the end of this month.

The Share-A-Ride program works like this: Anyone interested in sharing a ride with a fellow cast member should complete a card at one of these locations and

Darryl Green of Operations/Foods completes a Share-A-Ride card at the North Service Area. Our Share-A-Ride program helps interested cast members locate someone to ride to and from work.

leave it in the appropriate box. To make it easier to identify the area in which you live, a large map with a grid system dividing the Orlando area into four major sections and numerous sub-sections is located on each Share-A-Ride board. If you need someone to ride with, just thumb through the cards which have been placed in the box for your area of Orlando.

Computerized Car Pooling

Computerized Car Pooling was one of the first transportation programs created by Cast Activities to assist cast members with their transportation needs. During the past few months, they've been updating their listings to better serve cast members interested in forming car pools. Computerized Car Pooling is different from our Share-A-Ride program in that everyone interested in car pooling is listed by zip codes with shifts included. Car Pooling forms and maps to indicate the location in which you live are presently available at all payroll distribution locations and Cast Activities. Anyone interested in having their name included in our Computerized Car Pooling listings should submit a form to Cast Activities no later than Friday, April 20. Our new list-

ings will be available in all training offices and Cast Activities during the month of May.

Disney Car Care Center Discounts Expanded

As many of you know, our cast discount at our Disney Car Care Center was recently increased to offer all cast members a **20% discount on all parts and labor**. In addition to saving you money on vehicle maintenance, utilizing the service available at our Disney Car Care Center will save you time . . . no waiting at a service station or automobile dealership on your day off for maintenance repairs; the cast members at our Car Care Center will drive you to your work location after you drop off your car and pick you up at the end of your shift! You'll also conserve energy by eliminating around town driving you'd normally do to get your vehicle serviced!

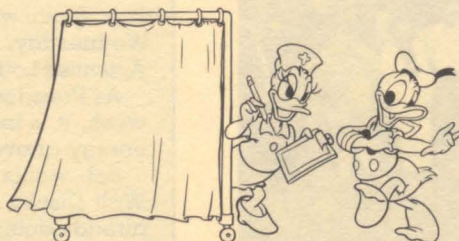

Remember, if you need a special part or a particular brand of tire, our Disney Car Care Center will be happy to assist you.

Car Care Tips Columns Offer Gasoline Conservation Suggestions

You may not have noticed that the Car Care Tips columns in **Eyes & Ears** have not only offered suggestions for maintaining your vehicle but also for avoiding any unnecessary waste of gasoline. If your vehicle is not operating in peak condition, you **are** wasting gasoline . . . and that means money out of your pocket! We will continue to show you ways to provide your own maintenance service, to keep your vehicle operating at its peak and to conserve gasoline in future columns. Following these suggestions will help you do your part in conserving our energy resources and will help you save money!

It's up to all of us to eliminate energy wastefulness and maintain a large enough energy supply for our future. One of the best ways to find energy for our future use is to conserve what we have now! We at Walt Disney World will continue to strive to find ways to help in this nationwide concern.

1979 BLOOD BANK DRIVE

Our 1979 Walt Disney World Blood Bank Drive will be held from April 31 through May 11 with the mobile blood bank located at various locations throughout our property. Next week's **Eyes & Ears** will show a complete schedule of times the unit will be in your area, so that you can make an appointment.

Because you give, others may live . . .

AFRICAN PAVILION EXPECTED FOR WORLD SHOWCASE

Walt Disney Productions announced that an African Pavilion for EPCOT's World Showcase is one stop closer with the receipt of a Letter of Intent from Kenya last week. Two other African nations, Senegal and Ivory Coast, are expected to send similar letters soon.

The African Pavilion will promote tourism in the participating nations and will feature authentic food and merchandise of each country. It is the eleventh pavilion announced for the World Showcase section of EPCOT which is scheduled to open October 1, 1982. The other participating nations are Germany, Mexico, Canada, Japan, Morocco, United Kingdom, Israel, France, Italy and the United Arab Emirates.

FANTASYLAND CAFETERIA PLANS A "SPRING PICNIC"

In addition to our traditional Easter holiday menu offered at the Fantasyland Cafeteria, a special "Spring Picnic" will be held on **Friday, April 20**.

The day's menu will include Chicken in the basket, Beans and Franks and Baked Fish.

So plan on stopping by the cafeteria for a fun "Spring Picnic"; we guarantee the day will be full of surprises!

ADDITIONAL HOURS AVAILABLE

Extra hours are still available in many of our theme park food and custodial locations during our Easter holiday week, April 15 through 21.

If you would like additional hours, check first with your own supervision to be sure no additional hours are available in your division. Then call **Bob or Suzy at extension 4544** between 8 a.m. and 6 p.m. to be scheduled on an "as needed" basis.

Please note that if you volunteer to work additional hours in an area outside your own work location, you will be paid at the appropriate rate for the job you are scheduled to work, not at your regular pay rate.

Norm Ories of Security passed away last week. Norm had joined Walt Disney World in March of 1971 and spent most of his time with us in our I.D. office in the Center Building.

Our sincere condolences go to his many friends and family.

INCOME TAX DEADLINE CLOSING

Don't forget that **April 15th** is the deadline to file your 1978 income tax return, and Cast Activities is standing by to help you out. We still have a variety of forms available, including 1040, 1040A, schedules A, B, C, D, E, F, G, R and RP. There are also forms for Moving Expenses, Energy Credits, Gains & Losses and Child Care Expenses.

FOR YOUR BENEFIT

Walt Disney World Company offers cast members many unique benefits in addition to their regular benefits such as medical insurance, paid holidays, and sick pay. Among our more unique benefits are our employee sales.

Cast members may purchase slightly damaged or out-of-style merchandise at a 50% savings at our **Main Street Bargain Basement** which is located in the tunnel near the Main Street Break Room. The Bargain Basement is open each Thursday and Friday from 8 a.m. to 5 p.m.

On occasion, our Walt Disney World Shopping Village at Lake Buena Vista will hold a special cast member sale, offering cast members special prices on slightly damaged or out-of-style merchandise from our Village shops. Announcements for these sales will be made in Eyes & Ears, normally two weeks in advance of the sale.

Cast members may also take advantage of our **Property Control Sale** held every third Friday of the month from 8:30 a.m. to 3:30 p.m. This popular cast member sale located in the Excess Property Yard in our North Service Area offers miscellaneous excess property at substantial savings to cast members. Each month the items on sale vary, ranging from furniture from our resorts to used automobiles from Internal Transportation. This month's sale features several 1977 LTD wagons and one 1977 LTD sedan on a closed bid sale, with minimum bids accepted ranging from \$3,000 to \$3,300. Any cast member interested in viewing these vehicles before the next Property Control Sale on Friday, April 20 can call Property Control at 4878 Monday through Friday during normal business hours. Bids will be accepted through April 20 at 4:00 p.m. with bids being open on April 23.

All cast members may take advantage of these special benefits. But please remember, all back stage areas are restricted to cast members only. Your family members and friends may accompany you into our theme park, but not into our tunnel or other backstage areas.

ADVENTURELAND MAINTENANCE RECEIVES AWARD

Last week Neil Gallagher, Director of Facilities, presented our Adventureland Maintenance Department a special award for continually meeting deadlines for scheduled service during the last 36 months.

The Adventureland Maintenance Department includes third shift cast members (Front Row) Bill DuBose, Steve Adams, Bill Hartman, Alton Morehouse, Craig Feters, Jack Cribbs, (Second Row) Ross Goodenough, Kenneth Eckerty, Fred Ecker, Bruce McDaniel and Rick Gold.

First and second shift cast members in the Adventureland Maintenance Department include (First Row) Robert Reynolds, Ray Tanner, Manny Demes, Dom DiGioia, Al Waggoner, Gene Riendeau, (Second Row) Pat Holloway, Gordon Jones, Bob Larsen, Bill Griffin, Jack Allen, (Third Row) Bob Clayton, Clyde Hutcheson, Chuck Stein, Clarence Krall, Lee Linder and Fred Davey.

REEDY CREEK IMPROVEMENT DISTRICT RECEIVES AWARD

It must be that time of year . . . it seems that almost every area of Walt Disney World is receiving an award! The latest area to be included in the awards presentations is our Reedy Creek Improvement District.

The State of Florida Department of Environmental Regulation recently

presented an award to Reedy Creek Improvement District for outstanding achievement in wastewater treatment. The Department of Environmental Regulation stated that "without operations such as Walt Disney World's, we would not be able to pursue our task of improving the quality of our environment."

Congratulations are in order to everyone involved with our wastewater treatment area!

LETTERS TO US

To the cast of Walt Disney World:

Thank you for the beautiful flowers I received while I was recuperating from surgery in the hospital.

Ann Richardson

To the cast at Walt Disney World:

Thank you for the lovely flowers while I was in the hospital.

Sincerely,
Bob Dyson

Your thoughtfulness is appreciated very much.

Tom Moore

Ed. Note: The following letter was sent to **Bob Allen**, Vice-President of Walt Disney World, and we'd like to share it with you . . .

Dear Mr. Allen:

More than a week has passed since we left the Polynesian Hotel, but the memory is as clear as if we were still there. I am sure you must have received many letters of this nature, but our enjoyment was such that I feel compelled to let you know how deeply we appreciated our delightful five days and four nights.

Worlds like efficiency, courtesy, friendliness, helpfulness and concern just do not seem sufficient to express the kind of service we received from every employee of Walt Disney World that we encountered. Quite often I was more awed by Walt Disney World's operation than by all the things contained in the Magic Kingdom. Your orientation for employees must be one super program.

I could go on and on with a long list of things we liked about our accommodations and service but I am just positive you have heard them all before. May I say in closing that you and all the employees of Walt Disney World made us one happy little group of vacationers.

Sincerely,
Laurie R. Rhode
